Re: **Case Closure**  
**Post Site Characterization Monitoring Report – 1<sup>st</sup> Quarter 2008**  
Site Name/Location: Associated Naval Architects, Inc., 3400 Shipwright St, Portsmouth  
DEQ Tracking Number: PC#05-5160

Dear Mr. Everhart:

Thank you for providing the subject report to the Department of Environmental Quality (DEQ). Based on the information you have provided, the State Water Control Board acting through the DEQ, as authorized by CODE § 62.1-44.34:14 through 23 believes that contamination levels at this site do not warrant further corrective action. This pollution complaint case is now closed. Should future environmental problems occur, which the DEQ determines are related to this release, additional investigation and corrective action may be required in accordance with State Law.

In order to reduce future risks to ground water, all monitoring wells at the site must be properly abandoned. Please submit an Activity Authorization Form for abandoning monitoring wells to this office.

**Virginia Law prohibits the payment of corrective action and third party liability reimbursement claims which are filed more than two years after DEQ closes a case. All claims for this release must be received by DEQ no later than April 22, 2010 in order to be eligible for reimbursement.**

If you have any questions, please contact me at (757) 518-2055.

Sincerely,

Lynne E. Smith  
Geologist Senior  
Remediation Program
