This winter we had many oil spills from 1 gallon to 5 gallons and we used your product. Successfully we did not have any call backs for odor and we successfully remediate the homes with your product.
We did this without any traditional venting of fresh air.

I would say your product has proved to be a valuable tool in the remediation of oil.

I would like to know your gallon price

Thank you .

Scott Miller

Hi Scott,
We had sent a sample to you a few months ago. I was following up to see if you got a chance to use it and if you had any questions for me.

Thanks

Gnanu Ayyola

My name is Scott Miller
I work for Purofirst of Milwaukee. We are a disaster reastoration company in Wisconsin. We have many fuel oil spills in the winter months. Could you please send me a sample to try out.

Thank you

Scott Miller
