Dear Mrs. Aaysola,

H.B. McClure Company's Oil Department and Service Department are proud to say that your product, Vapor Remed is true to it's claim. We have used your product on a few problems that we had this past year.

One being an oil tank leaked on a customer's basement floor and Vapor Remed was used for the clean up and the odor was gone in about 6 hours.

Another incident that happened was a fuel oil driver had a problem with a fuel oil hose outside of a company that sold granite countertops. Unfortunately he got oil on some of the granite stone and we used Vapor Remed to remove the oil from the stone.

Vapor Remed worked up to our expectations in all of these incidents.

Thank you for this great product!

Vince P. Mitchell
